TECHNICAL SKILLS

Frontend Development

- HTML5 CSS3 JavaScript
- TypeScript React.js Next.js
- Vite Tailwind CSS
- Framer Motion Zustand

Backend Development

- Node.js Express.js FastAPI
- Python REST APIs

Databases

- MongoDB SQLite ChromaDB

Artificial Intelligence

- AI Agents RAG Systems
- Prompt Engineering
- Vector Databases
- Local LLM Deployment
- AI Automation OpenAI APIs
- Ollama Whisper AI

Cloud & DevOps

- Docker Git GitHub Netlify
- Vercel Render Cloudinary

Payment & Auth

- Firebase Auth JWT Razorpay

CAREER OBJECTIVE

Passionate Full Stack Developer and AI Enthusiast focused on building scalable web applications, intelligent automation systems, SaaS products, and next-generation AI-powered experiences. Experienced in creating modern user interfaces, backend architectures, and innovative technology solutions.

"Building Intelligent AI Systems, Modern SaaS Platforms, and Immersive Interactive Experiences."

FOCUS AREAS

- </> Full Stack Web Development
- 🧠 Artificial Intelligence
- ☁️ SaaS Product Development
- 🤖 Automation Systems
- ⚡ Real-Time Applications
- 👤 UI/UX Engineering
- ☑️ Cloud Deployment
- 🎮 Game Development
- 🧩 Agentic AI Systems

FEATURED PROJECTS

JARVIS – Advanced AI Operating System

- REACT FASTAPI PYTHON OLLAMA WHISPER CHROMADB DOCKER
- MONGODB REDIS

JARVIS is an advanced AI-powered assistant platform designed to function as a personal AI operating system. It integrates multiple AI models, memory systems, voice interaction, automation workflows, and intelligent decision-making capabilities into a unified ecosystem.

- ▶ **Intelligent Assistant:** Multi-model local AI support, conversational voice interface (Whisper speech synthesis), and a long-term memory system.
- ▶ **RAG Workflows:** Document analysis and knowledge base retrieval powered by FastAPI, Python, and a ChromaDB vector store.
- ▶ **Enterprise Infrastructure:** Modular plugin architecture running in Docker containers with MongoDB and Redis backend services.

📈 COCKPIT ATS STATISTICS

ATS Rank: 96/100 (Elite)

Keyword Match: 100% Synced

Readability Grade: Post-Grad Level

Realistic 2D Train Simulator

PHASER.JS

JAVASCRIPT

HTML5 CANVAS

WEBGL

WEB AUDIO API

A highly immersive train simulation game developed using modern 2D rendering techniques that create realistic depth and environmental immersion.

- ▶ **Visual Depth:** Implements multi-layer parallax scrolling, depth simulation, dynamic weather rendering, fog, shadows, and particles.
- ▶ **Interactive Systems:** Built-in route management, train physics, passenger stations, AI-guided traffic, and dynamic audio engine.
- ▶ **Optimized Rendering:** Hardware-accelerated WebGL rendering pipeline optimized for smooth desktop and mobile web experiences.

Next-Generation SaaS Platform

REACT

TAILWIND CSS

FRAMER MOTION

NODE.JS

EXPRESS.JS

MONGODB

RAZORPAY

FIREBASE

A modern SaaS platform featuring enterprise-grade UI/UX, advanced animations, analytics, authentication, subscription management, and scalable cloud architecture.

- ▶ **Advanced UI/UX:** Polished Framer Motion graphics, scroll-based transitions, glassmorphism aesthetics, and responsive dynamic layouts.
- ▶ **Platform Features:** Built-in subscription management, role-based dashboard analytics, real-time alerts, and Razorpay gateway.
- ▶ **Robust Backend:** Secure authentication (Firebase/JWT), MongoDB database layer, and Node/Express API routes.

AI Sentiment Analysis Dashboard

REACT.JS

VITE

FASTAPI

PYTHON

NLP

MACHINE LEARNING

CHART.JS

TAILWIND CSS

Developed a full-stack AI-powered Sentiment Analysis Dashboard that analyzes reviews, comments, and text data using NLP and Machine Learning models.

- ▶ **Real-time Analysis:** Performs instant Positive, Negative, and Neutral classifications on input text arrays.
- ▶ **Interactive Charts:** Visualizes sentiment metrics over time with interactive Chart.js representations.
- ▶ **REST API Integration:** High-speed server integrations using FastAPI and custom python data-cleaning pipelines.

AI Caption Generator

REACT.JS

NODE.JS

EXPRESS.JS

FASTAPI

OPENAI API

PROMPT ENGINEERING

TAILWIND CSS

Built an AI-powered Caption Generator that automatically generates engaging social media and marketing captions using advanced OpenAI APIs.

- ▶ **Writing Styles:** Supports multiple creative writing presets (professional, casual, humorous, educational).
- ▶ **Prompt Optimization:** Custom system prompt setups that optimize marketing copies for conversion.
- ▶ **Responsive UI:** Responsive, modern glassmorphic editing suite for copy formatting and clipboard copying.

AI Tools Platform (50+ AI Tools)

[REACT.JS](#)[NODE.JS](#)[EXPRESS.JS](#)[MONGODB](#)[FASTAPI](#)[PYTHON](#)[OPENAI APIS](#)[FIREBASE](#)[CLOUDINARY](#)[DOCKER](#)

Designed and developed a comprehensive AI Tools portal featuring more than 50 custom utilities for writing, image generation, and productivity.

- ▶ **Utility Catalog:** Features an AI Writing Assistant, Image Generator (DALL-E), Summarizers, Translators, and SEO tools.
- ▶ **Core Services:** Secure Firebase Authentications and Cloudinary pipelines for visual asset uploads.
- ▶ **DevOps Deployment:** Configured Docker multi-container environments running backend instances on Render.

TrollVerse – AI Meme & Social Platform

[REACT.JS](#)[NODE.JS](#)[EXPRESS.JS](#)[MONGODB](#)[SOCKET.IO](#)[FIREBASE](#)[RAZORPAY](#)[TAILWIND CSS](#)[CAPACITOR](#)

Next-generation social media ecosystem styled with a dark, cyberpunk Gen-Z aesthetic, combining short-form content, gamified communities, AI assistants, and creator economies.

- ▶ **Social & Reels:** Infinite-scroll social feed with vertical reels auto-player and community memes voting rankings.
- ▶ **Gamification & Economy:** Experience progression levels, memeCoin systems, daily energy limits, and virtual cosmetic stores.
- ▶ **Real-time Battles:** Live chat sockets for direct/group messaging, notifications, and 24h interactive meme duel wars.

UNIFIED PROFESSIONAL TIMELINE

2023 - PRESENT

Freelance Full-Stack Developer

Fiverr Platform

Developing scalable responsive web platforms, backend RESTful web architectures, and integrations with AI capabilities for client portfolios across multiple countries.

FEB 2024 - AUG 2024

Data Science & AI Intern

PhiScape Robotics

Designed machine learning pipelines, deployed local models utilizing Python framework structures, and completed full-stack custom dashboards for automation hardware.

AUG 2023 - OCT 2023

Flutter App Development Intern

Metaloop Global IT Services

Developed cross-platform mobile elements, optimized widget render structures, and built session authentications with Firebase databases.

2023 - 2027 (EXPECTED)

B.Tech - Computer Science & Engineering

Bishop Jerome Institute

Pursuing advanced academic studies in computer networks, relational systems, neural architectures, data structures, and

algorithms.
