

MUHAMMED AL FAYAS N

Full Stack Developer | AI Engineer | React.js | Node.js | Python | FastAPI

+91 9778281484 | muhammedalfayas28@gmail.com | linkedin.com/in/muhammed-al-fayas-n | github.com/Fayas826 | proweb-creators.netlify.app | Kollam, Kerala, India

PROFESSIONAL SUMMARY

Full Stack Developer and AI Engineer with 2+ years of project experience shipping 6 production applications across SaaS, social media, and AI domains. Proficient in React.js, Node.js, FastAPI, and Python. Built AI systems that cut manual workflows by 60% and integrated RAG pipelines processing 500+ daily queries. Recognized as National Technical Quiz Gold Winner, ranked 1st out of 500+ participants. Seeking a full-stack or AI engineering role to drive product outcomes measured by uptime, query throughput, and user retention.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, SQL

Frontend: React.js, Vite, HTML5, CSS3, Tailwind CSS, Web Design, Framer Motion, Jest

Back End: Node.js, Express.js, FastAPI, RESTful APIs / Web Services, WebSockets, Python

Databases: MongoDB, PostgreSQL, SQLite

AI & ML: OpenAI API, LangChain, RAG (Retrieval-Augmented Generation), AI Agents, Machine Learning, NLP (Natural Language Processing), Prompt Engineering, Ollama, Whisper AI

DevOps & Cloud: AWS, Docker, Git, GitHub, CI/CD, Agile Methodologies, SDLC, Vercel, Render, Firebase

Integrations: Razorpay, JWT, Capacitor, Socket.io

PROJECTS

JARVIS – Full Stack AI Operating System | Python, FastAPI, React.js, Docker, ChromaDB

- Architected a multi-model AI operating system with long-term memory storage, utilizing RAG (Retrieval-Augmented Generation) and Whisper AI voice input to cut task lookup time by 70% across 1,000+ documents.
- Designed and deployed an AI agent RAG pipeline on FastAPI and ChromaDB with 95% retrieval accuracy, serving 500+ daily queries at under 300ms response time.
- Implemented a React.js plugin frontend and Docker multi-container setup (MongoDB + Redis), reducing cloud deployment time from 4 hours to under 5 minutes.

AI Sentiment Analysis Dashboard | Python, FastAPI, React.js, Chart.js

- Created an NLP sentiment analysis dashboard using React.js and FastAPI for real-time sentiment classification and analytics with 88% model accuracy.
- Optimized the real-time analytics data pipeline to process 200+ text inputs per session, reducing manual review time by 50%.

AI Caption Generator | OpenAI API, React.js, Node.js

- Designed an AI writing agent using OpenAI API prompt engineering and prompt-chaining to automate the creation of 500+ unique SaaS captions per week.
- Created 8 style presets with a custom React.js/Node.js UI, increasing user engagement metrics by 40% in beta testing with 50+ active testers.

Full Stack AI Tools Platform | React.js, Node.js, Docker, Firebase, Cloudinary

- Launched a 50-tool AI portal for SaaS content generation, translation, and SEO optimization; deployed on Render with Docker to serve 300+ users.
- Integrated Firebase authentication and Cloudinary image pipelines, maintaining 99% uptime with 12+ uninterrupted CI/CD releases over 6 months.

TrollVerse – Full Stack Social Media Platform | React.js, Node.js, Express.js, MongoDB, Socket.io

- Built TrollVerse, a full-stack social media platform with React.js frontend and Node.js/Express.js backend, serving 200+ active users with live messaging at under 200ms response time.
- Integrated Razorpay payment gateway, Firebase authentication, and Capacitor mobile builds, enabling 2 platform releases (iOS & Android) from a single codebase.

2D Train Simulator | Phaser.js, WebGL, Web Audio API

- Engineered a physics-accurate 2D train simulation in Phaser.js with WebGL rendering and a 4-state weather system across 5 levels, achieving a consistent 60 FPS frame rate.
- Implemented a Web Audio API sound engine and automated AI traffic system; scored 4.7/5 in usability testing with 30+ active players.

PROFESSIONAL EXPERIENCE

Data Science & AI Intern

PhiScape Robotics Pvt Ltd | Kollam, Kerala | Jun 2024 – Aug 2024

- Trained 3 ML models and contributed to 2 AI prototypes, improving model accuracy by 12% via hyperparameter tuning.
- Promoted to lead data preprocessing tasks for the team within 3 weeks of joining, owning the data pipeline end-to-end.
- Researched and documented 5 machine learning algorithms for the team's internal knowledge base, reducing onboarding time for new interns by 30%.

Freelance Full Stack Developer

Self-Employed | Remote | Apr 2024 – May 2024

- Built and deployed 2 client web applications using React.js and Node.js, delivering projects on time and within scope.
- Obtained 3 professional course certifications in Docker, REST API design, and cloud deployment to support agile development cycles.

Flutter App Development Intern

Metaloop Global IT Services | Thiruvananthapuram, Kerala | Jan 2024 – Mar 2024

- Programmed 4 cross-platform mobile feature modules in Flutter/Dart with Firebase integration, reducing backend query response time by 25%.
- Collaborated with a 3-member engineering team to debug and resolve 15+ UI issues, cutting crash rate by 40% in QA testing.
- Wrote unit tests for 6 core app modules, achieving 80% code coverage and reducing post-release bug reports by 35%.

EDUCATION

B.Tech – Computer Science & Engineering

Aug 2023 – May 2027

Bishop Jerome Institute, Thiruvananthapuram, Kerala | CGPA: 7.2/10

CERTIFICATIONS & ACHIEVEMENTS

- **Gold Award** – Genzee Tech National Technical Quiz (Ranked 1st out of 500+ participants)
- AI & Data Science Specialist – Industrial Training Certificate, PhiScape Robotics Pvt Ltd
- Cyber Security Specialist – IIT Delhi Programme Workshop Certificate
- Modern Software Development – Industry Tech Orientation Certificate
