

MUHAMMED AL FAYAS N

Full Stack Developer | AI Engineer | React.js | Node.js | Python | FastAPI

+91 9778281484 | muhammedalfayas28@gmail.com | linkedin.com/in/muhammed-al-fayas-n | github.com/Fayas826 | Thiruvananthapuram, Kerala, India

PROFESSIONAL SUMMARY

Full Stack Developer and AI Engineer with 2+ years of project experience shipping 6 production applications across SaaS, social media, and AI domains. Proficient in React.js, Node.js, FastAPI, and Python. Built AI systems that cut manual workflows by 60% and integrated RAG pipelines processing 500+ daily queries. Recognized as National Technical Quiz Gold Winner, ranked 1st out of 500+ participants. Seeking a full-stack or AI engineering role to drive product outcomes measured by uptime, query throughput, and user retention.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript
Frontend (Front-end Languages): JavaScript, React.js, Vite, HTML5, CSS3, Tailwind CSS, Web Design, Framer Motion
Back End: Node.js, Express.js, FastAPI, REST APIs, WebSockets, Python
Databases: MongoDB, SQLite, ChromaDB (vector store)
AI & ML: OpenAI API, LangChain, RAG Architecture, Whisper AI, Ollama, VADER NLP, Prompt Engineering
DevOps & Cloud: Docker, Git, GitHub, Vercel, Render, Netlify, Cloudinary, Firebase
Integrations: Razorpay, JWT, Capacitor, Socket.io

PROJECTS

JARVIS – Full Stack AI Operating System | Python, FastAPI, React.js, Docker, ChromaDB

- Built a multi-model AI assistant with long-term memory storage and Whisper AI voice input, cutting task lookup time by 70% compared to manual searches across 1,000+ indexed documents.
- Designed a RAG pipeline on ChromaDB and FastAPI, achieving 95% retrieval accuracy; scaled to serve 500+ daily queries at under 300ms average response time.
- Launched a React.js plugin-based frontend and Docker multi-container setup (MongoDB + Redis), reducing deployment time from 4 hours to under 5 minutes.

AI Sentiment Analysis Dashboard | Python, FastAPI, React.js, Chart.js

- Designed and deployed an NLP sentiment classifier using Python and VADER with 88% accuracy across 3 categories (Positive, Negative, Neutral).
- Produced a real-time analytics dashboard processing 200+ text inputs per session, reducing manual review time by 50%.

AI Caption Generator | OpenAI API, React.js, Node.js

- Built an AI caption tool using OpenAI API with prompt-chaining, enabling automated creation of 500+ unique captions per week.
- Shipped 8 writing-style presets with a custom React.js/Node.js UI, increasing user engagement by 40% in beta testing with 50+ testers.

Full Stack AI Tools Platform – 50+ Utilities | React.js, Node.js, Docker, Firebase, Cloudinary

- Led development of a 50-tool AI portal for writing, image generation, translation, and SEO; deployed on Render with Docker, supporting 300+ registered users.
- Integrated Firebase authentication and Cloudinary pipelines, maintaining 99% uptime with 12+ uninterrupted CI/CD releases over 6 months.

TrollVerse – Full Stack Social Media Platform | React.js, Node.js, Express.js, MongoDB, Socket.io

- Directed full-stack Back End and Front-end architecture serving 200+ active users with Socket.io live messaging at sub-200ms response time and MongoDB-backed profiles.
- Integrated Razorpay payment gateway, Firebase authentication, and Capacitor mobile builds, extending reach to iOS and Android from a single codebase.

2D Train Simulator | Phaser.js, WebGL, Web Audio API

- Engineered a physics-accurate train simulation in Phaser.js with WebGL rendering and a 4-state weather system across 5 levels, achieving a consistent 60 FPS frame rate.
- Implemented a Web Audio API sound engine and AI traffic system; scored 4.7/5 in usability testing with 30+ players.

PROFESSIONAL EXPERIENCE

Data Science & AI Intern

PhiScape Robotics Pvt Ltd | Kollam, Kerala | Jun 2024 – Aug 2024

- Completed 3 ML model training cycles and contributed to 2 AI prototypes; improved model accuracy by 12% via hyperparameter tuning.
- Promoted to lead data preprocessing tasks for the team within 3 weeks of joining, owning the data pipeline end-to-end.
- Researched and documented 5 machine learning algorithms for the team's internal knowledge base, reducing onboarding time for new interns by 30%.

Freelance Full Stack Developer

Self-Employed | Remote | Apr 2024 – May 2024

- Built and deployed 2 client web applications using React.js and Node.js, delivering projects on time and within scope.
- Completed online coursework in Docker, REST API design, and cloud deployment to strengthen full-stack skill set.

Flutter App Development Intern

Metaloop Global IT Services | Thiruvananthapuram, Kerala | Jan 2024 – Mar 2024

- Completed 4 cross-platform mobile feature modules in Flutter/Dart with Firebase integration, reducing backend query response time by 25%.
- Collaborated with a 3-member engineering team to debug and resolve 15+ UI issues, cutting crash rate by 40% in QA testing.
- Wrote unit tests for 6 core app modules, achieving 80% code coverage and reducing post-release bug reports by 35%.

EDUCATION

B.Tech – Computer Science & Engineering

Aug 2023 – May 2027

Bishop Jerome Institute, Thiruvananthapuram, Kerala | CGPA: 7.2/10

CERTIFICATIONS & ACHIEVEMENTS

- Gold Award** – Genzee Tech National Technical Quiz (Ranked 1st out of 500+ participants)
- AI & Data Science Specialist – Industrial Training Certificate, PhiScape Robotics Pvt Ltd
- Cyber Security Specialist – IIT Delhi Programme Workshop Certificate
- Modern Software Development – Industry Tech Orientation Certificate
