Thiruvananthapuram, Kerala, India

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer and AI Engineer with hands-on experience building scalable SaaS platforms, intelligent AI systems, and production-grade web applications. Proficient in React.js, Node.js, FastAPI, and Python with deep expertise in AI agent development, RAG architectures, and OpenAI API integrations. Passionate about delivering high-quality software solutions combining modern UI/UX with robust backend engineering.

TECHNICAL SKILLS

Programming: Python, JavaScript, TypeScript

Frontend: HTML5, CSS3, React.js, Vite, Tailwind CSS, Framer Motion

Backend: Node.js, Express.js, FastAPI

Databases: MongoDB, SQLite, ChromaDB

AI & ML: Prompt Engineering, AI Agents, RAG Systems, OpenAI APIs, Whisper AI, Ollama, NLP, Machine Learning

Cloud & DevOps: Docker, Git, GitHub, Netlify, Vercel, Render, Cloudinary

Other: REST APIs, Firebase, Razorpay, JWT Authentication, WebSockets

PROJECTS

JARVIS - Advanced AI Operating System

- Built a full-featured AI assistant platform integrating multi-model local AI with long-term memory and voice interaction via Whisper AI.
- Designed a RAG pipeline using ChromaDB vector database and FastAPI backend for semantic document retrieval.
- Developed a React.js frontend with modular plugin architecture deployed in Docker multi-container environments with MongoDB and Redis services.

AI Sentiment Analysis Dashboard

- Developed an NLP-based sentiment analysis system classifying text into Positive, Negative, and Neutral categories using Python and VADER.
- Built a real-time dashboard with Chart.js data visualization and a FastAPI backend connected to a React.js frontend.

AI Caption Generator

- Created an AI-powered caption generation tool using OpenAI API integrations with advanced prompt engineering techniques.
- Delivered multiple writing-style presets and a responsive glassmorphic frontend built with React.js and Node.js.

AI Tools Platform (50+ AI Tools)

- Engineered a comprehensive AI tools portal housing 50+ utilities including writing assistants, image generators, translators, and SEO tools.
- Implemented Firebase authentication, Cloudinary media pipelines, and Docker-based deployment on Render.

TrollVerse - Social Media Platform

- Built a full-stack social platform with React.js frontend, Node.js and Express.js backend, and MongoDB database with Socket.io real-time features.
- Integrated Firebase authentication, Razorpay payment gateway, and Capacitor for cross-platform mobile deployment.

Realistic 2D Train Simulator

- Developed an immersive train simulation using Phaser.js with hardware-accelerated WebGL rendering, parallax scrolling, and a dynamic weather system.
- Implemented train physics, AI-guided traffic, passenger station logic, and a Web Audio API dynamic sound engine.

INTERNSHIP EXPERIENCE

Data Science & AI Internship

PhiScape Robotics Pvt Ltd

- Gained hands-on experience in data science workflows, machine learning model training, and AI application development.

Flutter App Development Internship

Metaloop Global IT Services

- Developed cross-platform mobile features using Flutter and Dart, integrating Firebase database and authentication systems.

EDUCATION

B.Tech - Computer Science & Engineering

Expected 2027

Bishop Jerome Institute, Thiruvananthapuram, Kerala

CERTIFICATIONS & ACHIEVEMENTS

- AI & Data Science Specialist - Industrial Training Certification, PhiScape Robotics
- Cyber Security Specialist - Workshop Certification, IIT Delhi Programme
- National Quiz Gold Winner - Genzee Tech National Technical Quiz
- Industry Tech Orientation - Modern Software Development Webinar
